

Winter Term Junior Development Program 2017-2018

NYSEF Winter-Term Program

Mission: It is the mission of NYSEF to provide opportunities for athletes of all ages to reach their potential in snow sports - alpine skiing, freestyle skiing, snowboarding, ski jumping, cross country skiing, nordic combined, and biathlon - through professional guidance and financial support.

Overview: Beginning this season, NYSEF Snowsports (NYSEF) will be offering a dedicated **Junior Development Winter Term Program** allowing aspiring student-athletes the opportunity to pursue their athletics at an advanced level while continuing remotely in their home school's academic curricula, providing an avenue to excel academically and athletically.

Staff:

Winter Term Program Director/ Academic Coordinator: **Beatty Schlueter**

NYSEF Head Nordic Coach: **Shane MacDowell**

NYSEF Head Ski Jumping Coach: **Colin Delaney**

NYSEF Junior Ski Jumping Coach: **Jay Rand**

Tutoring Staff: A team of qualified local tutors offering academic assistance in core subjects. The tutors will be selected in November.

Objectives:

- To ensure student-athletes in the U16-U20 age groups have an avenue to pursue their athletic goals, specifically the 2018 Junior National Championships, without compromising their academic development;
- To provide an environment where a student-athlete can balance academics and athletics daily through the utilization of quality tutors and coaches; and
- To instill a sound work ethic in student-athletes and foster the opportunity to build a strong foundation for their high school and college experience as a student-athlete competing at the highest level.

Dates:

To get the full winter term experience, we are offering a full winter option starting December 3 and running through March (and the end of race season). This program is designed for athletes to take full advantage of what NYSEF and Lake Placid have to offer by living and training out of the Olympic Training Center (OTC). This program is focused on all of the JNQ events on the NYSSRA and NENSA calendars and is tailored towards athletes that wish to race at the Junior National level and beyond.

With XC Junior Nationals taking place **March 5-10**(Soldier Hollow, UT), January and February are the ideal time for athletes to focus on quality preparation. By taking part in this program, athletes can maximize training and recovery time while staying on top of academics with the support of a staff of

qualified tutors. Other important dates are U16 Championships **March 9-11** (Gore Mt, NY) and Eastern High School Championships **March 16-18** (Rumford, ME).

Academic Support Role:

NYSEF is committed to providing sound academic support for aspiring student-athletes who have enrolled in our winter term program. This program is designed to allow flexibility within a rigorous daily schedule to afford the student-athlete an opportunity to pursue sport at a level beyond what is possible in his or her home environment. Several hours will be allocated daily to academics - student-athletes are expected to excel academically amidst a challenging and demanding schedule.

In the NYSEF Junior Development Winter Term, academic tutoring will be provided on an individual and/or group basis as needed and arranged by the academic coordinator. Student-athletes will be expected to complete their home school curricula per the schedule set forth by the guidance counselor, academic director or appropriate school official. Clear and frequent communication between the student, academic coordinator and home school representatives will be emphasized throughout the duration of this term.

Schedule:

Example of a Daily Schedule on Tuesday-Sunday below. Monday is typically off-snow and dedicated to academics. Please note, program includes (but not limited to) daily practices focusing in on technique and race prep, video analysis, sports psychologist, athletic trainer access, equipment prep, nutritionist, and sport education.
